## EXPLANATORY NOTES

1. **Source of Data:** Export documents collected by Customs are the basic source of export statistics, except for data on electricity, crude petroleum and natural gas exported by pipeline. Electricity exports are reported by the exporting firms through the National Energy Board, oil and gas exported by pipeline are reported by the pipeline companies directly to the Dominion Bureau of Statistics.

2. **Time Periods:** Export statistics for any month include all goods declared on export entries received at DBS during the calendar month. There are often delays in the collection or mailing of Customs export documents, especially those relating to waterborne shipments. Reports of electricity and of pipeline exports of crude petroleum and natural gas, only arrive in time for inclusion in statistics for the following month.

### 3. Coverage:

a. **Domestic Exports:** Statistics of domestic exports include both goods which are wholly produced in Canada and goods previously included in import statistics which have been changed in form by further processing in Canada and then exported.

b. **Re-Exports:** Statistics of re-exports include only goods previously included in import statistics which are exported from Canada in the same form as when imported. Minor operations such as sorting or re-packing are not considered as changing the condition of imported goods.

c. **Total Exports:** These statistics are the sum of a. and b. above.

d. **Exclusions:** The following commodity movements are excluded from export statistics (most are recorded separately as Special Transactions—Non-trade in Table 6): gold and gold products where the value of the gold

## NOTES EXPLICATIVES

1. **Source des données:** La statistique des exportations se fonde principalement sur les documents d'exportation recueillis par les Douanes, sauf dans le cas des données sur l'électricité, le pétrole brut et le gaz naturel exportés par oléoduc. Les rapports sur l'électricité sont fournis par les entreprises exportatrices par l'intermédiaire de l'Office national de l'énergie, tandis que les compagnies exportatrices de pétrole et de gaz par oléoduc fournissent directement leurs rapports au Bureau fédéral de la statistique.

2. **Périodes de temps:** La statistique des exportations pour un mois quelconque comprend toutes les marchandises déclarées dans les documents d'exportation parvenus au B.F.S. durant le mois civil. Il se produit souvent des délais dans la perception ou l'expédition des documents douaniers d'exportation, notamment pour ce qui est de ceux qui ont trait aux marchandises expédiées par bateau. Les rapports sur l'électricité et sur les exportations de pétrole brut et de gaz naturel exportés par oléoduc nous parviennent à temps pour que ces rapports soient inclus seulement dans la statistique pour le mois suivant.

### 3. Couverture:

a. **Exportations nationales:** La statistique des exportations nationales comprend les marchandises entièrement produites ou fabriquées au Canada de même que les marchandises précédemment comptées dans les importations et que l'on a transformées de nouveau au Canada et ensuite exportées.

b. **Réexportations:** La statistique des réexportations ne comprend que les marchandises précédemment comptées dans la statistique des importations et qui sont exportées du Canada dans l'état où elles étaient lors de leur importation. Les manipulations secondaires telles que le triage ou le réemballage ne modifient pas l'état des marchandises importées.

c. **Total des exportations:** Ces statistiques correspondent au total des valeurs a. et b. ci-dessus.

d. **Exclusions:** Les mouvements de marchandises suivants sont exclus de la statistique des exportations (la majorité est classée séparément comme transactions spéciales—hors commerce dans le Tableau 6): l'or et les articles en

content is 80% or more of the total value except for dental gold alloy (class 880-29) and a small amount of gold scrap in the form of jewellers' sweepings (class 256-99); current coin; settlers' effects; private donations and gifts; tourist purchases; goods shipped to Canadians posted abroad or re-exported from Canada by forces of our NATO allies or by foreign diplomats; temporary exports for exhibition or competition (and film exported for exhibition or processing, or returned after exhibition or processing in Canada); exports to Canada's NATO allies financed under the Defence Appropriation Act; bunker supplies and ships' stores sold to foreign vessels or aircraft in Canadian ports; generally, all temporary exports and goods merely moving in transit through Canadian territory.

or dont la valeur de la teneur en or représente 80 p. 100 ou plus de la valeur totale, sauf les alliages d'or dentaire (classe 880-29) et une petite quantité de déchets d'or sous la forme de balayures de bijoutiers (classe 256-99); la monnaie courante, les effets d'immigrants; les dons et cadeaux privés; les achats des touristes; les marchandises expédiées aux canadiens affectés à l'étranger ou réexportées à l'extérieur du Canada par les forces armées des alliés du Canada de l'OTAN ou par les diplomates étrangers; les exportations provisoires pour les expositions ou les concours (et les films exportés en vue de leur projection ou de leur développement ou les films retournés après projection ou développement au Canada); les exportations aux alliés du Canada de l'OTAN financées en vertu des lois sur les crédits de défense; les approvisionnements de soutes et de navires vendus aux navires et aéronefs étrangers dans les ports canadiens; en général, toutes les exportations provisoires et les marchandises qui séjournent temporairement en transit, en territoire canadien.

**4. Countries Credited:** Exports are credited to the country to which they are consigned at the time that the goods leave Canada, i.e. to the furthest known destination of the goods.

**4. Pays de destination:** Les exportations sont créditées aux pays vers lesquels les marchandises sont consignées au moment de leur départ du Canada, soit la destination la plus éloignée connue.

**5. Quantities:** Tables 4 and 6 show quantities in terms of the units specified for each class in the Export Commodity Classification, Vol. I (DBS Catalogue No. 12-521). Where no unit of quantity is specified, the quantity columns are blank. Table 5 shows quantities only where all (or substantially all) of the classes in a group use the same measure of quantity.

**5. Quantités:** Les Tableaux 4 et 6 donnent les quantités selon le système d'unités indiquées pour chaque catégorie dans la Classification des marchandises d'exportation, Vol. I (B.F.S. numéro de Catalogue 12-521). Quand aucune unité de quantité n'est mentionnée, les colonnes réservées aux quantités sont laissées en blanc. Le Tableau 5 indique les quantités seulement là où toutes les catégories dans un groupe ou la majeure partie des catégories utilisent la même mesure de quantité.

Units of weight or volume are measured net of the weight or volume of any packing required for shipment. Numbers refer to complete (or substantially complete) units exported, excluding parts (for any class where the recorded value includes both complete units and parts of these units, the average value per complete unit cannot be calculated). All units of quantity used in this report are defined on page 7.

Les unités de poids ou de volume visent le poids ou le volume net des marchandises et pas ceux des emballages nécessités par l'expédition. Le nombre représente les articles complets (ou dans un état assez complet) exportés, en excluant les pièces. Les nombres représentent des unités complètes (ou assez complètes) exportées, sans les parties (pour les catégories où la valeur indiquée comprend à la fois des unités et des parties d'unités, il est impossible de calculer la valeur moyenne par unité complète). Toutes les unités de quantité employées dans ce rapport sont expliquées à la page 7.

6. **Values:** Export entries define the valuation to be placed on exports as f.o.b. place of lading i.e., exclusive of inland freight, insurance, handling etc. The currency in which exports are reported is Canadian dollars. If a foreign currency is reported on the export declaration, then this is converted into Canadian dollars.

All values appearing in this report are presented in thousands of dollars. Where the cumulative value of exports from a particular country in any commodity class (or group) is less than \$500, a line for that country is printed if a quantity is available and only the quantity is shown. Where the cumulative value is \$500 or more but the value for the current month is less than \$500 a quantity (if applicable) but no value appears in the current month column. All totals and cumulative values are calculated from unrounded figures and rounded independently; they will therefore often differ from the sum of the rounded figures shown in the report.

7. **Abbreviations:** Many descriptions of countries and commodities used in this report are abbreviated or incomplete. A key to abbreviations of countries appears in this report, and full descriptions of all commodities and commodity groups appear in the "Export Commodity Classification, Vol. I." The letters "n.e.s." mean "not elsewhere specified".

8. **Revisions:** All statistics in this report are subject to revision. Revisions to previous reports are published on coloured pages at the beginning of this report.

9. **Country Classification:** Statistics are compiled and presented on a geographical basis and the use of state or territorial titles carries no political, territorial or constitutional implications.

6. **Valeurs:** Les documents d'exportations définissent la valeur à attribuer aux exportations f.à b. lieu de chargement i.e., à l'exclusion du transport à l'intérieur du pays, des assurances, de la manutention, etc. La valeur des exportations est déclarée en dollars canadiens. Si les exportations sont déclarées en devises étrangères, la valeur est alors convertie en dollars canadiens.

Toutes les valeurs qui paraissent dans le présent rapport sont indiquées en milliers de dollars. Lorsque la valeur cumulative des exportations en provenance d'un pays en particulier dans une catégorie de marchandises (ou groupe) est inférieure à \$500, une ligne apparaît dans le rapport si une quantité est disponible et la quantité seulement est indiquée. Lorsque la valeur cumulative est de \$500 ou supérieure mais, pour le mois en cours, inférieure à \$500, une quantité (si disponible) est publiée mais par contre aucune valeur ne paraît dans la colonne du mois en cours. Tous les totaux et toutes les valeurs cumulatives sont calculés à partir de chiffres non arrondis et sont arrondis indépendamment en milliers de dollars; ils différeront donc souvent de la somme des chiffres arrondis du rapport.

7. **Abréviations:** Plusieurs descriptions de pays et de marchandises utilisées dans le présent rapport sont abrégées ou incomplètes. La clef aux abréviations visant les pays est donnée dans le présent rapport, tandis que les descriptions complètes des catégories et des groupes de marchandises paraissent dans la "Classification des marchandises d'exportation, Vol. I". Les lettres "n.d.a." signifient "non dénommé ailleurs".

8. **Rectifications:** Toutes les données statistiques contenues dans le présent rapport sont sujettes à rectification. Les rectifications apportées aux rapports antérieurs paraissent dans les pages en couleur au début de ce rapport.

9. **Classification des pays:** Quoique les statistiques soient ventilées géographiquement les désignations des états et des territoires ne comportent nullement une signification politique, territoriale ou constitutionnelle.

## EXPLANATORY NOTES

1. **Source of Data:** Export documents collected by Customs are the basic source of export statistics, except for data on electricity, crude petroleum and natural gas exported by pipeline. Electricity exports are reported by the exporting firms through the National Energy Board, oil and gas exported by pipeline are reported by the pipeline companies directly to the Dominion Bureau of Statistics.
2. **Time Periods:** Export statistics for any month include all goods declared on export entries received at DBS during the calendar month. There are often delays in the collection or mailing of Customs export documents, especially those relating to waterborne shipments. Reports of electricity and of pipeline exports of crude petroleum and natural gas, only arrive in time for inclusion in statistics for the following month.
3. **Coverage:**
  - a. **Domestic Exports:** Statistics of domestic exports include both goods which are wholly produced in Canada and goods previously included in import statistics which have been changed in form by further processing in Canada and then exported.
  - b. **Re-Exports:** Statistics of re-exports include only goods previously included in import statistics which are exported from Canada in the same form as when imported. Minor operations such as sorting or re-packing are not considered as changing the condition of imported goods.
  - c. **Total Exports:** These statistics are the sum of a. and b. above.
  - d. **Exclusions:** The following commodity movements are excluded from export statistics (most are recorded separately as Special Transactions—Non-trade in Table 6): gold and gold products where the value of the gold

## NOTES EXPLICATIVES

1. **Source des données:** La statistique des exportations se fonde principalement sur les documents d'exportation recueillis par les Douanes, sauf dans le cas des données sur l'électricité, le pétrole brut et le gaz naturel exportés par oléoduc. Les rapports sur l'électricité sont fournis par les entreprises exportatrices par l'intermédiaire de l'Office national de l'énergie, tandis que les compagnies exportatrices de pétrole et de gaz par oléoduc fournissent directement leurs rapports au Bureau fédéral de la statistique.
2. **Périodes de temps:** La statistique des exportations pour un mois quelconque comprend toutes les marchandises déclarées dans les documents d'exportation parvenus au B.F.S. durant le mois civil. Il se produit souvent des délais dans la perception ou l'expédition des documents douaniers d'exportation, notamment pour ce qui est de ceux qui ont trait aux marchandises expédiées par bateau. Les rapports sur l'électricité et sur les exportations de pétrole brut et de gaz naturel exportés par oléoduc nous parviennent à temps pour que ces rapports soient inclus seulement dans la statistique pour le mois suivant.
3. **Couverture:**
  - a. **Exportations nationales:** La statistique des exportations nationales comprend les marchandises entièrement produites ou fabriquées au Canada de même que les marchandises précédemment comptées dans les importations et que l'on a transformées de nouveau au Canada et ensuite exportées.
  - b. **Réexportations:** La statistique des réexportations ne comprend que les marchandises précédemment comptées dans la statistique des importations et qui sont exportées du Canada dans l'état où elles étaient lors de leur importation. Les manipulations secondaires telles que le triage ou le réemballage ne modifient pas l'état des marchandises importées.
  - c. **Total des exportations:** Ces statistiques correspondent au total des valeurs a. et b. ci-dessus.
  - d. **Exclusions:** Les mouvements de marchandises suivants sont exclus de la statistique des exportations (la majorité est classée séparément comme transactions spéciales—hors commerce dans le Tableau 6): l'or et les articles en

content is 80% or more of the total value except for dental gold alloy (class 880-29) and a small amount of gold scrap in the form of jewellers' sweepings (class 256-99); current coin; settlers' effects; private donations and gifts; tourist purchases; goods shipped to Canadians posted abroad or re-exported from Canada by forces of our NATO allies or by foreign diplomats; temporary exports for exhibition or competition (and film exported for exhibition or processing, or returned after exhibition or processing in Canada); exports to Canada's NATO allies financed under the Defence Appropriation Act; bunker supplies and ships' stores sold to foreign vessels or aircraft in Canadian ports; generally, all temporary exports and goods merely moving in transit through Canadian territory.

or dont la valeur de la teneur en or représente 80 p. 100 ou plus de la valeur totale, sauf les alliages d'or dentaire (classe 880-29) et une petite quantité de déchets d'or sous la forme de balayures de bijoutiers (classe 256-99), la monnaie courante, les effets d'immigrants, les dons et cadeaux privés, les achats des touristes, les marchandises expédiées aux canadiens affectés à l'étranger ou réexportées à l'extérieur du Canada par les forces armées des alliés du Canada de l'OTAN ou par les diplomates étrangers; les exportations provisoires pour les expositions ou les concours (et les films exportés en vue de leur projection ou de leur développement ou les films retournés après projection ou développement au Canada); les exportations aux alliés du Canada de l'OTAN financées en vertu des lois sur les crédits de défense; les approvisionnements de soutes et de navires vendus aux navires et aéronefs étrangers dans les ports canadiens; en général, toutes les exportations provisoires et les marchandises qui séjournent temporairement en transit, en territoire canadien.

**4. Countries Credited:** Exports are credited to the country to which they are consigned at the time that the goods leave Canada, i.e. to the furthest known destination of the goods.

**4. Pays de destination:** Les exportations sont créditées aux pays vers lesquels les marchandises sont consignées au moment de leur départ du Canada, soit la destination la plus éloignée connue.

**5. Quantities:** Tables 4 and 6 show quantities in terms of the units specified for each class in the Export Commodity Classification, Vol. I (DBS Catalogue No. 12-521). Where no unit of quantity is specified, the quantity columns are blank. Table 5 shows quantities only where all (or substantially all) of the classes in a group use the same measure of quantity.

**5. Quantités:** Les Tableaux 4 et 6 donnent les quantités selon le système d'unités indiquées pour chaque catégorie dans la Classification des marchandises d'exportation, Vol. I (B.F.S. numéro de Catalogue 12-521). Quand aucune unité de quantité n'est mentionnée, les colonnes réservées aux quantités sont laissées en blanc. Le Tableau 5 indique les quantités seulement là où toutes les catégories dans un groupe ou la majeure partie des catégories utilisent la même mesure de quantité.

Units of weight or volume are measured net of the weight or volume of any packing required for shipment. Numbers refer to complete (or substantially complete) units exported, excluding parts (for any class where the recorded value includes both complete units and parts of these units, the average value per complete unit cannot be calculated). All units of quantity used in this report are defined on page 7.

Les unités de poids ou de volume visent le poids ou le volume net des marchandises et pas ceux des emballages nécessités par l'expédition. Le nombre représente les articles complets (ou dans un état assez complet) exportés, en excluant les pièces. Les nombres représentent des unités complètes (ou assez complètes) exportées, sans les parties (pour les catégories où la valeur indiquée comprend à la fois des unités et des parties d'unités, il est impossible de calculer la valeur moyenne par unité complète). Toutes les unités de quantité employées dans ce rapport sont expliquées à la page 7.

6. **Values:** Export entries define the valuation to be placed on exports as f.o.b. place of lading i.e., exclusive of inland freight, insurance, handling etc. The currency in which exports are reported is Canadian dollars. If a foreign currency is reported on the export declaration, then this is converted into Canadian dollars.

All values appearing in this report are presented in thousands of dollars. Where the cumulative value of exports from a particular country in any commodity class (or group) is less than \$500, a line for that country is printed if a quantity is available and only the quantity is shown. Where the cumulative value is \$500 or more but the value for the current month is less than \$500 a quantity (if applicable) but no value appears in the current month column. All totals and cumulative values are calculated from unrounded figures and rounded independently; they will therefore often differ from the sum of the rounded figures shown in the report.

7. **Abbreviations:** Many descriptions of countries and commodities used in this report are abbreviated or incomplete. A key to abbreviations of countries appears in this report, and full descriptions of all commodities and commodity groups appear in the "Export Commodity Classification, Vol. I." The letters "n.e.s." mean "not elsewhere specified".

8. **Revisions:** All statistics in this report are subject to revision. Revisions to previous reports are published on coloured pages at the beginning of this report.

9. **Country Classification:** Statistics are compiled and presented on a geographical basis and the use of state or territorial titles carries no political, territorial or constitutional implications.

6. **Valeurs:** Les documents d'exportations définissent la valeur à attribuer aux exportations f.à b. lieu de chargement i.e., à l'exclusion du transport à l'intérieur du pays, des assurances, de la manutention, etc. La valeur des exportations est déclarée en dollars canadiens. Si les exportations sont déclarées en devises étrangères, la valeur est alors convertie en dollars canadiens.

Toutes les valeurs qui paraissent dans le présent rapport sont indiquées en milliers de dollars. Lorsque la valeur cumulative des exportations en provenance d'un pays en particulier dans une catégorie de marchandises (ou groupe) est inférieure à \$500, une ligne apparaît dans le rapport si une quantité est disponible et la quantité seulement est indiquée. Lorsque la valeur cumulative est de \$500 ou supérieure mais, pour le mois en cours, inférieure à \$500, une quantité (si disponible) est publiée mais par contre aucune valeur ne paraît dans la colonne du mois en cours. Tous les totaux et toutes les valeurs cumulatives sont calculés à partir de chiffres non arrondis et sont arrondis indépendamment en milliers de dollars; ils différeront donc souvent de la somme des chiffres arrondis du rapport.

7. **Abréviations:** Plusieurs descriptions de pays et de marchandises utilisées dans le présent rapport sont abrégées ou incomplètes. La clef aux abréviations visant les pays est donnée dans le présent rapport, tandis que les descriptions complètes des catégories et des groupes de marchandises paraissent dans la "Classification des marchandises d'exportation, Vol. I". Les lettres "n.d.a." signifient "non dénommé ailleurs".

8. **Rectifications:** Toutes les données statistiques contenues dans le présent rapport sont sujettes à rectification. Les rectifications apportées aux rapports antérieurs paraissent dans les pages en couleur au début de ce rapport.

9. **Classification des pays:** Quoique les statistiques soient ventilées géographiquement les désignations des états et des territoires ne comportent nullement une signification politique, territoriale ou constitutionnelle.

## EXPLANATORY NOTES

1. **Source of Data:** Export documents collected by Customs are the basic source of export statistics, except for data on electricity, crude petroleum and natural gas exported by pipeline. Electricity exports are reported by the exporting firms through the National Energy Board, oil and gas exported by pipeline are reported by the pipeline companies directly to the Dominion Bureau of Statistics.

2. **Time Periods:** Export statistics for any month include all goods declared on export entries received at DBS during the calendar month. There are often delays in the collection or mailing of Customs export documents, especially those relating to waterborne shipments. Reports of electricity and of pipeline exports of crude petroleum and natural gas, only arrive in time for inclusion in statistics for the following month.

### 3. Coverage:

a. **Domestic Exports:** Statistics of domestic exports include both goods which are wholly produced in Canada and goods previously included in import statistics which have been changed in form by further processing in Canada and then exported.

b. **Re-Exports:** Statistics of re-exports include only goods previously included in import statistics which are exported from Canada in the same form as when imported. Minor operations such as sorting or re-packing are not considered as changing the condition of imported goods.

c. **Total Exports:** These statistics are the sum of a. and b. above.

d. **Exclusions:** The following commodity movements are excluded from export statistics (most are recorded separately as Special Transactions—Non-trade in Table 6): gold and gold products where the value of the gold

## NOTES EXPLICATIVES

1. **Source des données:** La statistique des exportations se fonde principalement sur les documents d'exportation recueillis par les Douanes, sauf dans le cas des données sur l'électricité, le pétrole brut et le gaz naturel exportés par oléoduc. Les rapports sur l'électricité sont fournis par les entreprises exportatrices par l'intermédiaire de l'Office national de l'énergie, tandis que les compagnies exportatrices de pétrole et de gaz par oléoduc fournissent directement leurs rapports au Bureau fédéral de la statistique.

2. **Périodes de temps:** La statistique des exportations pour un mois quelconque comprend toutes les marchandises déclarées dans les documents d'exportation parvenus au B.F.S. durant le mois civil. Il se produit souvent des délais dans la perception ou l'expédition des documents douaniers d'exportation, notamment pour ce qui est de ceux qui ont trait aux marchandises expédiées par bateau. Les rapports sur l'électricité et sur les exportations de pétrole brut et de gaz naturel exportés par oléoduc nous parviennent à temps pour que ces rapports soient inclus seulement dans la statistique pour le mois suivant.

### 3. Couverture:

a. **Exportations nationales:** La statistique des exportations nationales comprend les marchandises entièrement produites ou fabriquées au Canada de même que les marchandises précédemment comptées dans les importations et que l'on a transformées de nouveau au Canada et ensuite exportées.

b. **Réexportations:** La statistique des réexportations ne comprend que les marchandises précédemment comptées dans la statistique des importations et qui sont exportées du Canada dans l'état où elles étaient lors de leur importation. Les manipulations secondaires telles que le triage ou le réemballage ne modifient pas l'état des marchandises importées.

c. **Total des exportations:** Ces statistiques correspondent au total des valeurs a. et b. ci-dessus.

d. **Exclusions:** Les mouvements de marchandises suivants sont exclus de la statistique des exportations (la majorité est classée séparément comme transactions spéciales—hors commerce dans le Tableau 6): l'or et les articles en

content is 80% or more of the total value except for dental gold alloy (class 880-29) and a small amount of gold scrap in the form of jewellers' sweepings (class 256-99); current coin; settlers' effects; private donations and gifts; tourist purchases; goods shipped to Canadians posted abroad or re-exported from Canada by forces of our NATO allies or by foreign diplomats; temporary exports for exhibition or competition (and film exported for exhibition or processing, or returned after exhibition or processing in Canada); exports to Canada's NATO allies financed under the Defence Appropriation Act; bunker supplies and ships' stores sold to foreign vessels or aircraft in Canadian ports; generally, all temporary exports and goods merely moving in transit through Canadian territory.

4. **Countries Credited:** Exports are credited to the country to which they are consigned at the time that the goods leave Canada, i.e. to the furthest known destination of the goods.

5. **Quantities:** Tables 4 and 6 show quantities in terms of the units specified for each class in the Export Commodity Classification, Vol. I (DBS Catalogue No. 12-521). Where no unit of quantity is specified, the quantity columns are blank. Table 5 shows quantities only where all (or substantially all) of the classes in a group use the same measure of quantity.

Units of weight or volume are measured net of the weight or volume of any packing required for shipment. Numbers refer to complete (or substantially complete) units exported, excluding parts (for any class where the recorded value includes both complete units and parts of these units, the average value per complete unit cannot be calculated). All units of quantity used in this report are defined on page 7.

or dont la valeur de la teneur en or représente 80 p. 100 ou plus de la valeur totale, sauf les alliages d'or dentaire (classe 880-29) et une petite quantité de déchets d'or sous la forme de balayures de bijoutiers (classe 256-99), la monnaie courante les effets d'immigrants; les dons et cadeaux privés; les achats des touristes; les marchandises expédiées aux canadiens affectés à l'étranger ou réexportées à l'extérieur du Canada par les forces armées des alliés du Canada de l'OTAN ou par les diplomates étrangers; les exportations provisoires pour les expositions ou les concours (et les films exportés en vue de leur projection ou de leur développement ou les films retournés après projection ou développement au Canada); les exportations aux alliés du Canada de l'OTAN financées en vertu des lois sur les crédits de défense; les approvisionnements de soutes et de navires vendus aux navires et aéronefs étrangers dans les ports canadiens; en général, toutes les exportations provisoires et les marchandises qui séjournent temporairement en transit, en territoire canadien.

4. **Pays de destination:** Les exportations sont créditées aux pays vers lesquels les marchandises sont consignées au moment de leur départ du Canada, soit la destination la plus éloignée connue.

5. **Quantités:** Les Tableaux 4 et 6 donnent les quantités selon le système d'unités indiquées pour chaque catégorie dans la Classification des marchandises d'exportation, Vol. I (B.F.S. numéro de Catalogue 12-521). Quand aucune unité de quantité n'est mentionnée, les colonnes réservées aux quantités sont laissées en blanc. Le Tableau 5 indique les quantités seulement là où toutes les catégories dans un groupe ou la majeure partie des catégories utilisent la même mesure de quantité.

Les unités de poids ou de volume visent le poids ou le volume net des marchandises et pas ceux des emballages nécessités par l'expédition. Le nombre représente les articles complets (ou dans un état assez complet) exportés, en excluant les pièces. Les nombres représentent des unités complètes (ou assez complètes) exportées, sans les parties (pour les catégories où la valeur indiquée comprend à la fois des unités et des parties d'unités, il est impossible de calculer la valeur moyenne par unité complète). Toutes les unités de quantité employées dans ce rapport sont expliquées à la page 7.

**6. Values:** Export entries define the valuation to be placed on exports as f.o.b. place of lading i.e., exclusive of inland freight, insurance, handling etc. The currency in which exports are reported is Canadian dollars. If a foreign currency is reported on the export declaration, then this is converted into Canadian dollars.

All values appearing in this report are presented in thousands of dollars. Where the cumulative value of exports from a particular country in any commodity class (or group) is less than \$500, a line for that country is printed if a quantity is available and only the quantity is shown. Where the cumulative value is \$500 or more but the value for the current month is less than \$500 a quantity (if applicable) but no value appears in the current month column. All totals and cumulative values are calculated from unrounded figures and rounded independently; they will therefore often differ from the sum of the rounded figures shown in the report.

**7. Abbreviations:** Many descriptions of countries and commodities used in this report are abbreviated or incomplete. A key to abbreviations of countries appears in this report, and full descriptions of all commodities and commodity groups appear in the "Export Commodity Classification, Vol. I." The letters "n.e.s." mean "not elsewhere specified".

**8. Revisions:** All statistics in this report are subject to revision. Revisions to previous reports are published on coloured pages at the beginning of this report.

**9. Country Classification:** Statistics are compiled and presented on a geographical basis and the use of state or territorial titles carries no political, territorial or constitutional implications.

**6. Valeurs:** Les documents d'exportations définissent la valeur à attribuer aux exportations f.à b. lieu de chargement i.e., à l'exclusion du transport à l'intérieur du pays, des assurances, de la manutention, etc. La valeur des exportations est déclarée en dollars canadiens. Si les exportations sont déclarées en devises étrangères, la valeur est alors convertie en dollars canadiens.

Toutes les valeurs qui paraissent dans le présent rapport sont indiquées en milliers de dollars. Lorsque la valeur cumulative des exportations en provenance d'un pays en particulier dans une catégorie de marchandises (ou groupe) est inférieure à \$500, une ligne apparaît dans le rapport si une quantité est disponible et la quantité seulement est indiquée. Lorsque la valeur cumulative est de \$500 ou supérieure mais, pour le mois en cours, inférieure à \$500, une quantité (si disponible) est publiée mais par contre aucune valeur ne paraît dans la colonne du mois en cours. Tous les totaux et toutes les valeurs cumulatives sont calculés à partir de chiffres non arrondis et sont arrondis indépendamment en milliers de dollars; ils différeront donc souvent de la somme des chiffres arrondis du rapport.

**7. Abréviations:** Plusieurs descriptions de pays et de marchandises utilisées dans le présent rapport sont abrégées ou incomplètes. La clef aux abréviations visant les pays est donnée dans le présent rapport, tandis que les descriptions complètes des catégories et des groupes de marchandises paraissent dans la "Classification des marchandises d'exportation, Vol. I". Les lettres "n.d.a." signifient "non dénommé ailleurs".

**8. Rectifications:** Toutes les données statistiques contenues dans le présent rapport sont sujettes à rectification. Les rectifications apportées aux rapports antérieurs paraissent dans les pages en couleur au début de ce rapport.

**9. Classification des pays:** Quoique les statistiques soient ventilées géographiquement les désignations des états et des territoires ne comportent nullement une signification politique, territoriale ou constitutionnelle.
